

3rd Year Projects

CRSid(s) g/534, JC2409

Project name **Data Logger**

Group No. 3 (on draw)

Onecall order code	Brief description of component	Qty	Unit price	Total price		
SC07901	741 Op Amp	3	0.26	0.78	← example	
CN23320	6.35mm 1/4" PCB Mono Jack Socket	4	0.230	0.930	ordered	received
CN22699	3.5mm Stereo Panel Jack Socket	1	0.330	0.330		
SC17198	Dual Op-Amps (LM358AP)	5	0.370	1.850		
1292245	Rail-to-Rail Op-Amps (MCP6002-I/P)	2	0.346	0.692		
SC08140	JFET Transistor (J113)	1	0.25	0.250		
SC17220	JFET - Input Op-Amp (TL072CP)	2	1.000	2.000		
CN23320	6.35mm 1/4" PCB Mono Jack Socket	1	0.930	0.930		
3692218	Optocoupler (NSL-32SR3)	1	3.290	3.290		
3692206	Optocoupler (NSL-32SR2)	1	3.110	3.110		

Demonstrators, please check the requested items match the circuit schematic before approving below (unapproved order sheets will be rejected)

Ordering components for 3rd year projects.

- Components should only be ordered from **Onecall**. The website is <http://onecall.farnell.com>
- Please check the package type, many components are now only available in small surface mount packages (examples shown below) which can be very difficult, if not impossible to connect to a bread board, or 0.1 inch pitch prototyping PCB, consequently it is best to avoid ordering them.

- Check if there is a minimum order quantity. Many passive components will have a minimum order quantity of 5, 10 or even 50. Some ICs are sold in tubes of 25 or 50 as well as individually. Make sure you are not ordering a tube of 25 when you only need one.

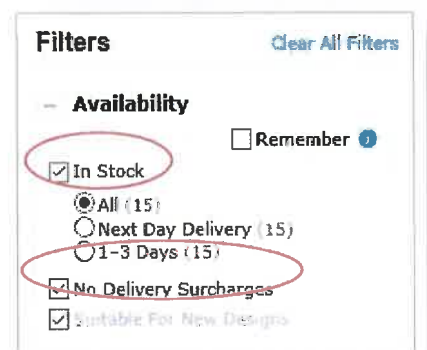

- Some components on the Farnell website are US stock only and/or incur a delivery surcharge.
Do NOT select these components – they WILL NOT be ordered.

- Check that the components you wish to order are not out of stock, as they may not arrive in time for you to use in your project.

* Note that items incurring a Delivery Surcharge and out of stock items **should** be excluded from the search by ticking the relevant boxes in the filter pane.

- Parts on order sheets submitted by 1:00pm** may arrive the next day, however two days is generally a more reliable expectation. Those submitted after 1:00pm may take a day longer to arrive.
The Bank holiday delays ordering/receipt of ordered items an extra day, so plan ahead.
Received parts will be placed in your project group draw, so make sure the group number at the top right corner of the form match that on your draw.
Last order sheet submissions will be 1:00pm (13:00) on 02 / 06 / 2026
